ABOUT YEREVAN

Yerevan, the capital city of Armenia, has been making strides in the field of plastic surgery in recent years. Armenia has a growing healthcare sector, and plastic surgery has become more prevalent, catering to both domestic patients and those coming from abroad.

In Yerevan, several clinics and medical centers offer various plastic surgery procedures, ranging from cosmetic enhancements to reconstructive surgeries. These facilities are equipped with modern technology and staffed by qualified plastic surgeons and medical professionals trained in the latest techniques.

Armenia, including Yerevan, has become an increasingly popular destination for medical tourism in the plastic surgery sector due to the combination of skilled medical professionals, modern facilities, competitive pricing, and personalized care. The country's healthcare system's growth has contributed to its reputation as a destination for high-quality medical procedures, including plastic surgery.

Welcome to PARCS 2024, where brilliance meets innovation! Join us in Yerevan, Armenia, for an unparalleled event uniting masters in Plastic Reconstructive Surgery, Aesthetic Medicine, Cosmetic Gynecology, and Regenerative Medicine.

At PARCS 2024, delve into interactive sessions, sub-sessions, and keynote lectures delivered by senior scientists. Engage in invigorating panel discussions and the Young Researcher Forum, offering a platform for the brightest minds to exchange insights and shape the future of research practices.
